AUTHOR'S NOTE

Welcome to my eighth edition of *Pop Annual*! The title of this book's seventh edition, *The Billboard Hot 100 Annual*, conveyed the depth of the chart – beyond pop music. But, it caused a bit of confusion for our readers who knew its previous six editions as the *Pop Annual*. So, its tried-and-true title is back.

This edition surpasses in depth previous editions that covered the songs that appeared on *Billboard* magazine's pop singles charts from 1955-58, and on the "Hot 100" chart, thereafter. This is the first *Pop Annual* to also include every song that appeared on *Billboard's* "Bubbling Under the Hot 100" charts! 'Bubbling' hits are listed right after the Hot 100 hits beginning in 1959, the year that chart debuted. The 'Bubbling' chart is separate from the "Hot 100" chart and introduces up-and-coming hits. Its numerical ranking starts at #1 rather than as a continuation of the last Hot 100 hit. The addition of the 'Bubbling' research to the *Pop Annual* makes this year-by-year musical chronology a fantastic parallel to the 13th edition of our artist-by-artist pop history, *Top Pop Singles*!

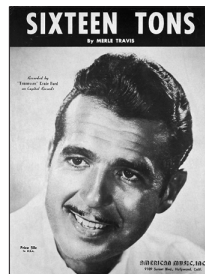

Several other new features make this eighth edition outstanding. Most apparent is the larger page size which allows for more data to be presented in a crisp, clean way; and, now there's room to display picture sleeve photos for each year's top five hits. Songwriters and times appear for all titles, including the newly added 'Bubbling' hits. Finally, previous editions showed a line break after the #1, top 10, 20, 40, 60, 80 & 100 titles, while this edition also shows a break following the top 5, 30, 50, 70 & 90 titles.

To me, the most exciting feature of *Pop Annual's* format, more so than any of our other books, is its ability to elicit memories. My idea for the first edition of this book, back in 1978, came from the way I had then organized my 45rpm record collection, by year and peak position. I loved to pull out a tray from a favorite year, put the needle on a record and travel back in time. For many years now, I've organized my collections by artist, so although I no longer peruse my 45s by year, I have *Pop Annual* to guide me down memory lane.

I'm sure you'll find this book to be a testament to how fast time flies. A decade ago, Destiny's Child, a group that last charted in 2005 and has since split, was the nation's #1 recording artist. Has it really been two decades since Bryan Adams, Michael Jackson and Paula Abdul had the top three hits in the nation? (Adams was last seen in the Top 10 in 1996, Jackson in 2001 and Abdul never again.) And though, it seems like it was just yesterday when I was buying their new releases, it's been 50 years since Elvis Presley, Brenda Lee and Chubby Checker were the top three artists. Time marches on but our musical memories are recorded for posterity in *Pop Annual*.

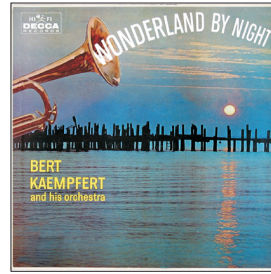

Enjoy!
